VINEYARD

Our Estate Chardonnay comes from a unique section in the south block of Seven Springs. Our Seven Springs Chardonnay underwent whole cluster pressing before being racked to once-used French barriques and Stockinger puncheons (500L) for fermentation. The wine remained in barrel for 12 months before being racked to tank. The wine completed élevage in tank for another 6 months before bottling. The Seven Springs Chardonnay was cold stabilized and lightly fined with bentonite clay before bottling.
