<b>Production:</b>	451 cases
<b>Vinification:</b>	100% whole cluster
<b>Vessel:</b>	Sealed concrete tank
<b>Fermentation:</b>	Indigenous fermentation
<b>Élevage:</b>	15 months in neutral French oak

### VINEYARD & WINE

Sourced from 2.2 acres of Gamay vines planted in 2003 in iron-rich, volcanic clay soils, the 2018 Seven Springs Gamay Noir is the most developed and complex expression of the variety we have produced to date.

The historically dry 2018 vintage realized a concentration of flavor in the fruit through both a lack of winter rain and ground moisture. Combined with an exceptional and even growing season, the resulting wine possesses both the exuberant fruit and underlying earth and spice that is so alluring in Gamay.

The fruit was fermented in a sealed concrete tank for 10 days before being drained and pressed. The wine was raised in our oldest barrels for 15 months, and bottled without filtration.
